Raiders Fight.

Before one o'clock Saturday morning, a desperate fight occurred in Bath county between twenty-five toll gate raiders and twelve of an officers posse, headed by Sheriff Lane. About one hundred shots were fired, resulting in the serious wounding of David Johnson and Charlie Jones, of the raider's gang who were arrested and taken to jail. The men shot have heretofore always borne good names and were well respected citizens.

Will Raise a Crop of Coffee.

Col Johnathan Estill, the forerunner of every agricultural enterprise in this county, says the Richmond Register, will put in a small crop of coffee as an experiment this year.—Richmond Register.

Forty-two retail groerymen in Lexington have organized a grocers' Association. Their principle object is to establish a scale of prices to prevent cutting rates. They will circulate a "black list" monthly for mutual protection against persons who fail to pay their bills. This is now and should be followed by merchants everywhere with much profit.

DIED.

Mrs. Emma Robinson, wife of Jailer Robinson died at her home in Winchester Tuesday June the 18th of measles and la grippe. The funeral was preached the following day by Eld. J. W. Hardin. The remains were interred in the city cemetery at Winchester.

Mrs. Robinson was a daughter of Israel Jackson and a sister of W. L. Jackson of near this village.

Bright Girls.

According to an Exchange the girls over at Crow Point, Ind., have formed a "Marriagable Ladies' League," to abjure matrimony unless the masculine applicant patronizes his home paper. For, according to the constitution of the League, failure to patronize one's home paper, "is strong evidence of a want of intelligence, and he will prove to stingy to provide for a family, educate his children and encourage institutions of learning in the community." These are sensible girls, and there are very few even of our most odious contemporaries which a sensible man would not be willing to patronize in order to qualify himself for marriage into the League.

Teaches us much

The wise and prudent man profiteth by the experience of others. We have but one way to judge the future and that is by the past, and we should profit by our mistakes, and be guided by the lamp of experience. Experience teaches all that quick cash sales and small profits is the modern way of conducting a successfull business. The Court of Appeals holds that a mosquito bite is an accident and Mrs. Sallie Amberg, whose husband died from this cause, will get \$5,000 from an accident insurance company.

The Gold Democrats and Republicans of Clark county have effected a fusion by which the goldites are to get the nominations for County Judge, Circuit Clerk and Assessor; the Republicans the Sheriff, County Clerk and Jailer. The other offices have not yet been divided.

An Iowa Senator refuses to take his salary because he was absent most of the time, and does not think he earned it. We don't know how it is in Iowa, but if Kentucky Senators will absent themselves all the time a bill to double their salaries would be very popular.—Louisville Post.

The Sharpsburg World has entered its sixth year, and during its five years of existence, it has never missed an issue and has never changed its management. Few papers succeed when published in a country town, and especially so when there are other papers published at the county seat of the same county.

Winchester Democrat: It is said that the new Republican Postmistress at Prestonsburg can not get a building within the city limits in which to keep the office.

The appointee is Mrs. Flannery, a sister of John W. Langly. She lives in the county and was appointed over the protest of the own people, who say that there is no building there that she can get at any price.

The extra session of the Legislature adjourned last week after having passed nineteen bills, all of which, except the revenue bill which increases the State tax rate ten cents on the hundred dollars, being of not much importance. Only twelve of the fifty two subjects outlined by the Governor in his call for the extra session, were considered during their sitting.

Corn is worth a dollar a bushel in Mexico, and as Mexico has not changed her money standard, the dollar which the farmer gets for his bushel of corn will still be a dollar, pay his debts and taxes, and railroad fares, and hotel bills, and a dollar's worth of anything he needs from the merchants.

Corn is worth 24 cents a bushel in Chicago, and since our money standard has been changed from the double standard to the gold standard, the 24 cents which the farmer gets for his bushel of corn will pay 24 cents on his debts, taxes railroad fares and hotel bills, where formerly a bushel of corn would have paid 48 cents of his debts, taxes, etc. While the change in the money standard has cut the price of his corn into, debts, taxes, railroad fares and interest rates were not correspondingly reduced.

This illustration has a wide application which every intelligent man will understand, and it demonstrates the injustice which the gold standard has done to the classes except the money lenders and monopolists and those who have fixed incomes which are not affected by the general condition of the country.—Dispatch.
